Forwards copy of letter from Chief Engineer (Serial 3) and requests to submit the report called for early.

6 From the D.C. Kolar District
Dean, N^o 1800 dated 8-11-21
Submit the report called for in Serial 2.

The two temples adjoining the pumping station at Bethamangala are now Muslim institutions. One of the temples has no image. The D.C. visited the place in company with the Executive Engineer. The village has agreed to remove ^{one of} the temple which is in a very dilapidated condition to their village Bethamangala.

Serial
No.

and to construct a fresh temple
or Musafekhava out of its material.
Stringent orders have been issued
to remove it early. The other
temple is in a fairly good state of
repairs and it will greatly improve
by allowing sufficient light and
air into it. The Sub-Division Officer
has been requested to submit a
plan and estimate for its restoration
and to report the source from
which the cost of the restoration
can be met.

Submitted for orders.

On 11/11/24 A copy of this letter for
the Dy Commr. may be sent to

is every chance of the Belthamagalatank
being Contaminated.

If the temple is not opened & or
public worship after its restoration,
the utility of spending a large amount
on its renovation is not apparent.

Of the two temples one (Sri
Ankeshwara) is a Muzrai institution
and the other (Sri Sadaswara) is a
non-muzrai institution. The Lingam
has been removed
and consecrated in the temple of
Sri Vijayawarayanaraswari at the place.
If the removal of these temples is
insisted upon, the cost of such removal
must come from the water supply Dept.
As the Muzrai Department comes from
funds for the purpose.

Pls. for the same.

8/3/22

If the two temples, one
is a Muzrai institution and the other
is a non-muzrai institution. The Lingam
has been removed and consecrated in the temple of
Sri Vijayawarayanaraswari at the place.

of 19

The water supply dept should not
be permitted to remove the building
at their cost, if they are willing to
do so. The other committee is not
a Gujarati institution and the

Office of the Deputy Commiss

Dated: KOLAR; the 3rd November 1921.

From

Mr. Zahiruddin Meccci, Esq., B.A.,

Deputy Commissioner, Kolar District.

To

T. L. Jayarama Iyer, Esq., B.A., B.L.,

Secretary to the Government of Mysore,

Muzrai Department, B a n g a l o r e.

Sir,

Adverting to your letter No:1523/Muz:174-21-2, dated 21st September 1921, calling for early report on letter No:1124, dated 7th September 1921, received from the Executive Engineer, Water Supply Division, requesting to issue needful orders for the removal of the disused temples adjoining the Pumping Station at Betharamangala, I have the honor to state that there are two temples, one of which, there is no image. These temples are reported to be non-muzrai institutions, as they are neither endowed with land inams, nor any cash grant. I visited the place in Company with the Executive Engineer, Kolar Division, in September 1919. Out of the two temples there, one is in a very dilapidated condition but the other is in a fairly good state of repair. It is badly in need of a door to prevent people getting into it and committing nuisance. The addition of a few windows to this temple will greatly improve it, by allowing sufficient light and air into it. The villagers who were present at the time of inspection, agreed to the removal of the first, viz: the dilapidated temple to their own village viz: Betharamangala and construct a fresh temple or musafirkhana out of the materials. As the local Officers have not, as yet, selected a suitable site, in consultation with the villagers, no steps seem to have been taken for the removal of this temple to the village. Stringent orders have again, this day, been issued to the Sub Division Officer, to take steps for the selection of a suitable site in the village and expedite the removal of the building. As regards the second

18

(2)

temple, which is in good repair, the Sub Division Officer, Kolar Division, is requested to expedite the submission of a plan and estimate for its restoration and to report the source, from which the cost of the restoration can be met. for report to Government.

I have the honor to be,

S i r,

Your most obedient servant,

R. K. Lalla fpa 3/11
Treasury Assistant Commissioner,
For Deputy Commissioner,
Kolar District.

To

T. T. Jaganmohan Iyer, Esq., B.A., B.L.,
Secretary to Government of Mysore,
Mysore Department, Mysore.

Sir,

In continuation of this office letter No:H.C.140 of 21-22, dated 7-11-21, regarding the letter No:1134, dated 7-9-21, received from the Executive Engineer, Water Supply Division, re: the removal of the old temples, adjoining the Pumping Station at Bethangala, I enclose herewith a copy of letter No:D.3.Dis.11/21-22, together with a list of estimates and depositions of shambhog Venkateswara and the residents of the village and to state that it will be seen therefrom, that the temples in question, are worth preservation, as their removal costs an enormous amount, on account of the huge stone pillars which have to be removed. The Sub Division Officer, who inspected the village of the spot, suggests that, with the amount of expenditure that is likely to be incurred for their removal, the temples can be properly restored and kept in a sanitary condition. It is also suggested by the Sub Division Officer, that if the Mysore Department cannot possibly spare the funds for the purpose, it is not too much for the water supply department to bear the cost, since the improvement is ^{an} primarily made for their sake. If the temples are restored, they would certainly present a pretty sight from the water side and from the Pumping Station.

As a considerable amount is required, either to put the temples in good order, or for their removal, I request that the Municipal Superintendent in Mysore may kindly be requested to visit the place and to furnish his own views in the matter, at a very early date.

Executive Engineer, Water Supply Division, to the Superintending
Engineer, Sanitary Circle, Bangalore.

Your Memo No.2159 dated 8th February 1922, forwarding
Chief Engineer's No.5758 dated the 6th regarding the disused
temples at Bethamangala.

With reference to the above, I have the honour to report
the the question was discussed on the 11th instant at the meeting
of the Committee appointed for the periodical inspection of the
Bethamangala Water Supply. A copy of the resolution of the
Committee is noted below for favour of your information. The
temples being close to the water margin of the tank it is not
considered quite desirable to restore them for worship. They
will no doubt present a pretty sight if kept in good condition;
and the improvements suggested by the Revenue and Sub-Divisional
Officer may be carried out by the Muzrai Department. There is
no provision in any of the estimates of this Division for -----
meeting the cost of these improvements.

2. Your memo is herewith returned.
